## CLIENT TESTIMONIALS

“The IlluminEssence technology has quite literally changed my life. It’s not a surface makeover to satisfy someone’s idea of beauty. It is based on such a deep level of being...right down to our blood and bones...that it works every time, for every circumstance, every day, every age we are.”

“Now I know why I make so many lists. My Harmonic Tone is geared to being a detail-oriented person and now I know it’s OK to let someone else help finish the job. I have become more productive at doing what I do best.”

*Diana Cichurski, Interior Designer

“IlluminEssence was a simple concept I could grasp and met me on a gut level I could understand. I’m visual and could relate to the visual aspects of colors, shapes, and textures. Coupled with learning how the various Harmonic Tones interface, without making anyone wrong, IlluminEssence gave me my first enlightenment on how we CAN work together. It’s brought me closer to my family. Being in Essence has had a huge effect on my life, a ‘Regular Joe’, and know it can have the same for others.”

*Mitch Leland, Retired General Contractor  
Kerrville, TX*

“How did they come up with a system that not only profoundly alters how I see and feel about myself, but also how I see and respond to others? This isn’t just about clothes and make-up, it goes way beyond anything I’ve ever encountered before...from relationships with friends and family, to what makes me comfortable at home or in the office...it’s literally opened doors in every part of my life!”

*Carol Sprague, Psychotherapist

“Health issues have been cleared and my body has shed excess weight naturally and intuitively and my physical shape is rearranging and reorganizing as my cells’ vibrational energies are supported and fed by my choices of clothing.”
